MAY - JUNE 2026

  [westin_school_official](#)

Kindergarten

"PLAYING, EXPLORING, AND LEARNING TOGETHER WITH FRIENDS"

This time, the children participated in a variety of fun and meaningful activities.

- 1.The children played picture card games to expand their vocabulary and learn new words.
- 2.The children used building blocks to create various shapes and structures based on their imagination and creativity.

- 3.The children drew and practiced writing using paint. They explored color mixing and expressed their ideas through creative artwork.

- 4.The children learned while playing with alphabet cards, helping them recognize letters in a fun and engaging way.

The enjoyable learning environment encouraged the children to enthusiastically try new things, share with their friends, and learn through hands-on experiences.

COOKING DAY

Our students had a fun Cooking Day making bubur sumsum. They wore chef hats and aprons and were very happy to join the activity.

The children were excited when they added different ingredients into the pan. They took turns pouring, mixing, and stirring the ingredients. They watched carefully as the mixture changed and became smooth.

This activity helped the children learn to work together, follow instructions, and try something new. They enjoyed every step of the cooking process and had lots of fun with their friends.

may-june

& ACTIVITIES

May and June were filled with fun learning experiences for our Nursery students!

1 Cooking Day

The students enjoyed making butterfly pea flower rice flour porridge. They loved helping with the ingredients and watching the mixture come together while exploring new colors, textures, and tastes.

2 Brushing Teeth

Our little learners practiced the proper way to brush their teeth and learned why keeping their teeth clean is important for a healthy smile.

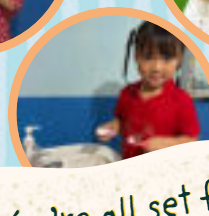

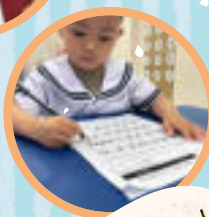

3 Final Test

The students completed their Final Test with confidence and enthusiasm. We are proud of all the progress they have made throughout the year.

From cooking and healthy habits to showing what they have learned, it has been a wonderful two months of learning, growth, and happy memories!

You're all set for a *wonderful* day!

HUMAN VOICES

Meaning of Human Voices

The human voice is the sound produced by the respiratory system and vocal cords. This sound is used for various communication and expression activities, such as speaking, singing, laughing, and crying.

Types of Human Voices :

Women's Voices:

1. Soprano: The highest voice character.
2. Mezzo Soprano: The female voice character with a medium.
3. Alto (Contralto): The lowest female voice character.

Men's Voices:

1. Tenor: The highest voice character.
2. Baritone: The male voice character with a medium range,
3. Bass: The lowest male voice character.

Fun Activities at My School

There are many activities we can do at school with our friends and teachers.

At school, I can play and learn together.

We learn a lot at school, including learning about different colors and sharing with friends. We play together in the playhouse, eat together during recess, and do many other activities.

There are so many fun activities we can do at school, and we really enjoy them.

Happy Graduation Day

**“KINDERGARTEN: COMPLETED!!
THE JOURNEY BEGINS.”**

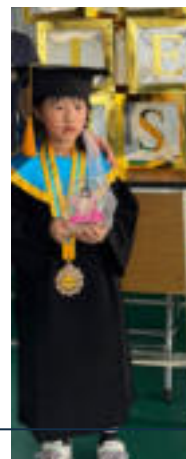

“Dream Big...Little grad..!”

Kindergarten graduation is a sweet milestone that celebrates a child's transition from play-focused learning to more structured education. It builds confidence in kids and provides a cherished memory for parents.

“Smart, Strong, and Shining Bright”

Kindergarten graduation is a magical milestone. Celebrate your little learner's big achievement with short, sweet, and inspiring words that highlight their growth, curiosity, and bright future.

FARMING FUN AT KG MERUYA

DIG, PLANT, GROW

The Students explored how plants grow, identified different fruits and vegetables, and learned about the farming process from planting seeds to harvesting crops. Through these experiences, the children developed their curiosity, observation skills, and appreciation for nature.

LITTLE FARMERS

Throughout the theme, our KG students became little farmers, showing great enthusiasm and excitement as they explored, asked questions, and discovered how farming helps provide food for people around the world.

PIA NEWSLETTER

LET'S TALK ABOUT STUDY TOUR

Our study tour to TMII in May was an exciting and enriching experience filled with discovery, hands-on learning, and a deeper appreciation of Indonesia's rich cultural and natural diversity.

One of the highlights of the trip was our visit to the Freshwater and Insect Museum, where students were fascinated by the impressive displays of unique freshwater species and various insects. The exhibits provided valuable insights into Indonesia's biodiversity and encouraged curiosity about the natural world.

Another memorable feature was the giant map of Indonesia painted on glass. The students were amazed to see the vast archipelago surrounded by expansive oceans, beautifully decorated with traditional Javanese batik patterns. This display helped them better understand Indonesia's geography while appreciating its cultural heritage.

To conclude this wonderful journey, the students proudly showcased their creativity through beautifully hand-painted umbrellas. These colorful creations serve as a lasting reminder of the enthusiasm, imagination, and pride that our PIA graders brought to this unforgettable study tour.

School Newsletter PIA

Classmeeting

Following the completion of the Final Test, students participated in an exciting Class Meeting filled with engaging games and activities. They worked together, showed positive sportsmanship, and strengthened their bonds with classmates. This event allowed students to unwind, enjoy meaningful experiences, and celebrate their achievements throughout the term. It was a memorable occasion that combined fun, learning, and friendship.

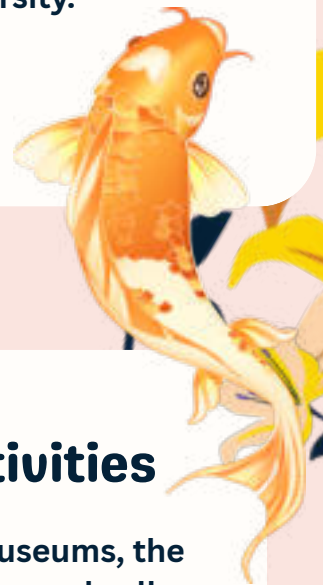

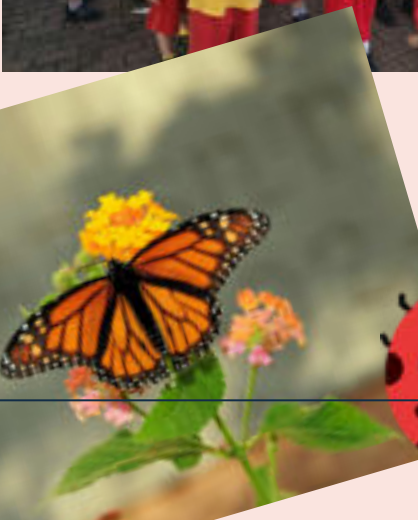

PIB

Study Tour Experience

This semester, our students enjoyed their second study tour to Taman Mini Indonesia Indah (TMII). They visited the Freshwater Aquarium Museum and the Insect Museum, where they explored various freshwater animals, fish species, and fascinating insects. The students were excited to observe the exhibits and learn more about nature and biodiversity.

Fun Learning Activities

In addition to visiting the museums, the students participated in a fun umbrella-painting activity that encouraged creativity and self-expression. The study tour was both educational and enjoyable, giving students valuable hands-on learning experiences while creating wonderful memories with their classmates and teachers.

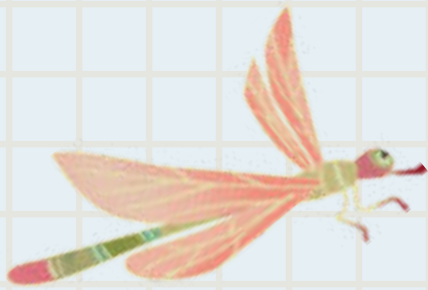

P1B

Class Meeting

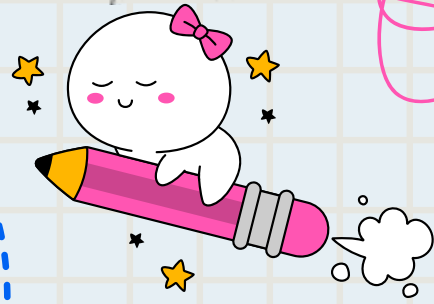

After completing the Final Test, students enjoyed a fun and exciting Class Meeting. They participated in various activities and games, worked together with their classmates, and showed good sportsmanship. The event gave students a chance to relax, make happy memories, and celebrate the end of the academic term. Everyone had a wonderful time learning, playing, and strengthening friendships. We also give some appreciation award for the one who the best in the class.

P2A

STUDY TOUR TO TMII

Our study tour to TMII in May was a wonderful learning experience filled with exploration and discovery. At the Freshwater and Insect Museum, students were fascinated by the diverse aquatic species and insect exhibits that showcased Indonesia's rich biodiversity.

One of the highlights was the giant glass-painted map of Indonesia, beautifully decorated with Javanese batik patterns. Students were amazed by the vast oceans and islands that make up our archipelago.

To end the day, our P2A students proudly showcased their hand-painted umbrellas, reflecting their creativity and appreciation for Indonesia's culture. It was a memorable journey filled with learning, inspiration, and fun.

Classmeeting

After Final Test 2, the P2A class is happy to join the Class Meeting. We play fun games and enjoy exciting activities with our friends. We learn to work together and help one another. Everyone has a chance to show their talents and skills. Class Meeting is a fun way to celebrate our hard work at school. 🌟😊🎉🏆📚

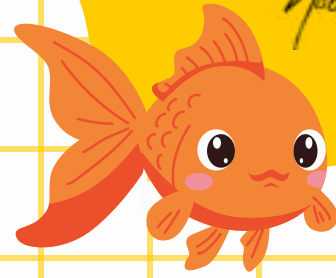

P 2A

**HAVE FUN,
KIDS!**

P2B

Study Tour

Study Tour is an educational trip where students visit places outside the classroom to learn from real life experiences. A study tour helps students understand lessons better by seeing things directly. it makes learning more interesting, develops observation and encourages teamwork and cooperation. there are some fun activities that helps students improve creativity. For 2nd semester, the students visited TMII, they visited insect and freshwater museum. they were excited to observe about insects and habitat.

P2B

CLASS MEETING

Class Meeting is a school activity held after exams or at the end of a semester. Students from different classes participate in fun competitions, games, and educational activities. it improves cooperation and communication skills, makes school life more enjoyable. and it builds confidence, develops teamwork.

P2C

STUDY TOUR

We went to TMII (Taman Mini Indonesia Indah). This study tour involved all grades 1-6 visiting TMII, an educational tourist attraction located in East Jakarta. We visited two places: the Insect Museum and the Freshwater World. We had a great time learning, playing with friends, and doing lots of activities.

CLASS MEETING, HAVE FUN!

After the exams were over, the school held a class meeting. We did many activities, including playing with friends, drawing and coloring, playing with the teachers both in and outside of class, and playing various games like guessing words or song lyrics, quizzes, and many more. We had a great time during these activities.

Class Newsletter 3A

Our study tour in May to TMI was packed with discovery, hands-on learning, and a deep dive into the beautiful diversity of Indonesia. We went to the Museum of Freshwater and Insects which amazed us with its displays showcasing unique aquatic species. A giant map of Indonesia was painted on the glass. They were mesmerized to see the vast oceans surrounding the islands with Javanese Batik patterns. To wrap up our big day, keep an eye out for the beautiful hand-painted umbrellas as a reminder of the creativity and pride our P3A graders brought to this trip!

End of school year

P3A

About P3A Class

The students have had such a wonderful year in our 3rd grade classroom. The students had fun playing together in various activities during the Class Meeting after the Final Test.

The students have worked hard to learn new skills that they will take with them into next year. Each one of them is going to experience many achievements in their education journey.

Thanks to P3A Students & Parents

A special thank you to all my students for their enthusiasm and effort in class. Thank you also to all the parents for their support and encouragement. Your involvement makes such a difference.

P3B AMAZING ADVENTURE

On June 7th, our students had an amazing adventure at Taman Mini Indonesia Indah (TMII)! We had a fantastic day of hands-on learning, starting with the fascinating world of Insects and the colorful wonders of the Freshwater Aquarium. We then wrapped up our trip at Museum Indonesia, students immersed themselves in country's rich culture and history. It was a wonderful day of discovery, curiosity, and fun.

June Edition

CLASS MEETING

Before officially becoming fourth graders, our Grade 3 students gathered for one last thrilling Class Meeting. It was a day full of teamwork and joy, featuring brain boosters, word-guessing, guess the song, and coloring activities. It was heartwarming to see them collaborate, cheer for one another, and express their creativity. We are so proud of their journey this year and can't wait to see them shine in Grade 4 next term!

P3C

STUDY TOUR TO TMII

CLASS MEETING ACTIVITIES

Our primary students recently enjoyed an exciting and educational study tour to Taman Mini Indonesia Indah (TMII). The trip provided students with valuable opportunities to learn outside the classroom while having fun with their friends and teachers.

The first destination was the Freshwater Aquarium Museum. Next, students visited the Insect Museum. After exploring the museums, students participated in a fun Umbrella Painting activity. We look forward to more exciting learning adventures in the future!

P3C

CONGRATULATIONS!

Very proud of all of you for successfully completing Grade 3 and moving on to Grade 4. As you begin a new journey in the next grade, continue to be students with good character, responsibility, and kindness. Keep improving your knowledge and skills. Thank you for the togetherness and memories this year. Love you all...

Congratulations to Jayden Wijaya, Daren Louvin Ang, and Valerine Cecilia Ardhika on your outstanding achievement. Your success is a wonderful reward for your effort, determination, and positive attitude toward learning. We are very proud of what you have accomplished and hope that this achievement will inspire both you and your classmates to continue striving for excellence.

CLASS MEETING ACTIVITIES

Before report card distribution, students participated in several days of exciting Class Meeting activities. During this special event, students took part in a variety of competitions that encouraged teamwork, creativity, sportsmanship, and confidence.

P4A

On May 8th, the P4A students had a fun and exciting study tour to Taman Mini Indonesia Indah (TMII). They visited the Freshwater World, Insect Museum, and Indonesia Museum, and enjoyed a creative Umbrella Workshop. It was a wonderful day filled with learning, creativity, and happy memories with friends and teachers! 🌞☂️🐟🦋🇮🇩

P4A

Report Distribution Day

This report card distribution brought wonderful news! Two of our friends achieved outstanding academic excellence and ranked among all P4 students.

🏆 Felix earned 1st Academic Champion.

🏆 James earned 3rd Academic Champion.

Good job, guys!

Classmeeting

P4A joined the basketball competition and enjoyed playing various board games together in class. A day full of teamwork, fun, and great memories!

Farewell to P4. Keep the Spirit for P5!

Thank you for all the wonderful memories, laughter, and learning experiences this year. Keep your spirit high as you begin your journey in P5! See you in the next chapter! 🧡

Goodbye P4!

P4B

Study Tour to TMII

This semester, our students enjoyed their second study tour to Taman Mini Indonesia Indah (TMII). They visited the Freshwater Aquarium Museum and the Insect Museum, where they explored various freshwater animals, fish species, and fascinating insects. The students were excited to observe the exhibits and learn more about nature and biodiversity.

P4B

CLASS MEETING

P4B joined the basketball competition and enjoyed playing various board games together in class. A day full of teamwork, fun, and great memories!

Report Distribution Day

Our school successfully conducted the Report Card Distribution Day for the academic term.

P4C GOES TO TMII

"Insect museum and Freshwater museum"

The educational visit to the insect museum and freshwater museum helps 4th-grade students learn about the lives of insects and fish directly.

"Nature is beautiful and cool."

The 4th-grade students are very excited to learn outdoors, exploring various animals in a beautiful and cool natural atmosphere.

"Art gallery"

The students were given a chance to show their skills by drawing and coloring paper umbrellas. In the final session, the 4th graders visited the museum gallery, which displays various traditional paintings and artworks from the archipelago.

P4 C

CLASS MEETING

our school held a class meeting. All students joined many fun activities and games. My class participated in drawing, games, and sports competitions. We worked together and supported our friends. The class meeting was exciting and helped us learn teamwork. Everyone was happy and enjoyed the event very much.

REPORT CARD PICKUP

The Report Card Pickup was conducted at school on Friday. Parents attended the event to receive their children's report cards and discuss academic progress with the teachers. The activity provided an opportunity for effective communication between the school and parents regarding student achievement and development.

P5A CLASSROOM

IMPORTANT INFORMATION:

Welcome to May 2026

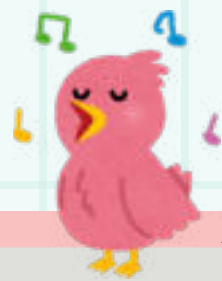

This May, Westin School held its second study tour, which was no less exciting than the first.

On this second study tour, 5th grade students visited the Freshwater Museum, the Insect World, and finally, the Indonesian Museum. There, 5th grade students learned a great deal about fish, insects, and Indonesian culture.

P5A

NEWSSS JUNE

This June, the students of class 5A completed their second-semester final exams and attended a class meeting, which included a basketball game.

Furthermore, each teacher also prepared for the 6th-grade graduation ceremony.

And on June 19th, report cards were distributed and class and overall winners were awarded. Marvel Jayden took first place in the class, Kenrich Manly took second, and Metta Chaelinda took third.

Marvel Jayden took first place in the overall combined class 5 winners. Congratulations, Jayden, on your achievement. ✦

P5B TRAVEL TIME

FULL ANGGOTA

MUSEUM SERANGGA

MUSEUM INDONESIA

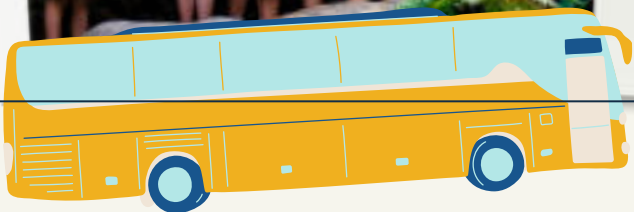

Our study tour to Taman Mini Indonesia Indah (TMII) was a blast! The park in Jakarta is like a mini version of Indonesia, showing off its cool culture and natural beauty.

First up, we hit the museums. The fish museum display all all kind of Plain-water Animal. Next, the bug museum had us amazed with variety of insects on show. The Indonesia museum was also a hit, showcasing the country's rich traditions in a fun way.

But the best part? Hanging out with friends! We laughed a lot, shared jokes, and snapped tons of photos. It wasn't just about learning; it was about making awesome memories together. TMII turned into our playground for the day, and the memories we made there are ones we'll cherish forever.

P5B ON STUDY TOUR

Classroom News P5C

Study Tour Experience - TMII

On 7 May 2026, our students enjoyed their second study tour in TMII. They learned a lot about the different kinds of fish and insects from this study tour.

Students also drew their favorite pictures on the paper umbrellas, unleashing their creativity and showcasing their unique creations.

P5C

Class Meeting

We had so many activities in this class meeting: basket ball competition, drawing and brain booster. P5C students demonstrated their talents, cooperated with each other, focused intently and gave their all to achieve victory.

Report Distribution

On June 19th, our school distributed students' report. So many parents came to ask the class teacher about their children's grades and their attitude. Congratulastions for our P5C students on embarking on the next stage of their journey! Keep up the good work guys, 加油!!!

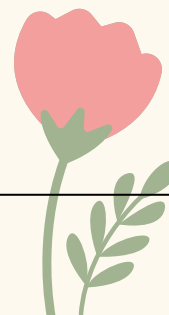

STUDY TOUR TMII

Educational visits to the Fish Museum, Insect Museum, and Indonesia Map Museum. Through this activity, students learn about biodiversity, the richness of fauna, and the vast geography of Indonesia in a fun and interactive way.

-  Explore Nature, Discover Knowledge!
-  Fun Learning at Indonesia's Educational Museums
-  Discovering Biodiversity and the Beauty of the Archipelago
-  One Step Closer to Knowing Indonesia Better

CLASSROOM NEWSLETTER P6A

The Class Meeting at the end of the school year for Grade VI students was filled with excitement through an inter-class basketball competition. This activity became a joyful moment of togetherness and created beautiful memories before the students moved on to the next level of education.

Congratulations to all our graduates! Keep learning, creating, and moving forward with confidence as you begin the next stage of your educational journey.

Classroom P6B

CLASSROOM NEWS

Our recent study tour to Taman Mini Indonesia Indah (TMII) was an exciting and educational experience for all students. The trip provided a valuable opportunity to learn about freshwater animals, insects and the cultural diversity of Indonesia outside the classroom.

Many students expressed their excitement at being able to see so many freshwater animals, insects, and Indonesian cultural heritage firsthand. They enjoyed learning through direct observation and interacting with exhibits that brought classroom lessons to life.

P6B

GRADUATION

Our Graduation Ceremony 2026 was a joyful and inspiring celebration of the achievements, growth, and dedication of our graduating students. Surrounded by family, teachers, and friends, students proudly marked the completion of an important chapter in their educational journey.

REPORT DISTRIBUTION

Our school successfully conducted the Report Card Distribution Day for the academic term. This important event provided an opportunity for students, parents, and teachers to review academic progress, celebrate achievements, and discuss future learning goals.

Experience The Wonder Of TMII

Class 6C enjoyed an exciting and educational field trip to Taman Mini Indonesia Indah (TMII), Jakarta, where students explored the Freshwater World, the Insect Museum, and the Indonesia Museum. Through interactive exhibits and hands-on learning experiences, they discovered the wonders of aquatic life, the diversity of insects, and the richness of Indonesia's culture and heritage. It was a memorable day filled with learning, exploration, and fun beyond the classroom.

Buzzing with curiosity and excitement! 🐝🐛🦋

Our amazing learning adventure at the Insect World of Taman Mini Indonesia Indah, Jakarta, was filled with discovery, fun, and wonder. From exploring fascinating insect habitats to learning about the important roles insects play in nature, every moment was a chance to grow and explore. Learning becomes even more meaningful when we experience it firsthand! 🌱✨

Exploring the Wonders of Freshwater Life! 🐟🌊✨

Our educational trip to the Freshwater World at Taman Mini Indonesia Indah, Jakarta, was an exciting journey into the fascinating world beneath the water's surface. From discovering unique freshwater species to learning about aquatic ecosystems and conservation, every exhibit inspired curiosity and a deeper appreciation for nature. A day full of learning, exploration, and unforgettable memories with friends! 💙🐟🌿

Report Distribution

A valuable opportunity for teachers and parents to discuss students' progress, achievements, and growth throughout the semester. Together, we support every child's success and future learning journey.

P6d

P6D students had an exciting educational trip to Taman Mini Indonesia Indah (TMII)! Their first destination was the Freshwater Fish Museum, where they learned about various freshwater fish species, their habitats, and the ecosystems they live in. The students were fascinated by the diversity of fish on display, especially the giant predator fish, the arapaima, which captured everyone's attention.

After exploring the fish museum, the students continued their journey to the Insect Museum. There, they discovered many interesting facts about insects and their important roles in nature. They learned more about bees, butterflies, and other fascinating insects while observing the exhibits. The trip was both fun and educational, giving the students valuable knowledge about the natural world.

Primary 1 Meruya

Fun-Filled Class Meet

The semester ended on a high note as our Primary 1 students enjoyed an exciting Class Meet after completing their Final Test. The event brought plenty of laughter, energy, and memorable moments for everyone.

Games and Teamwork

Students participated in a variety of fun games and engaging activities throughout the Class Meet. They showed great teamwork and enthusiasm while enjoying friendly challenges with their classmates.

Memorable Learning Experience

The students visited the Insect Museum, where they discovered a variety of fascinating insects and their unique characteristics. At the Freshwater Museum, they observed different species of fish and learned about aquatic life. They also explored the Indonesia Museum, gaining a deeper appreciation for the nation's diverse cultures, traditions, and history.

PRIMARY 3 MERUYA

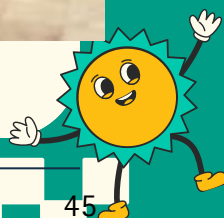

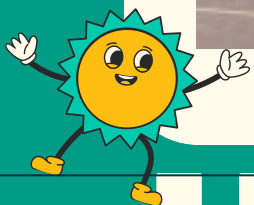

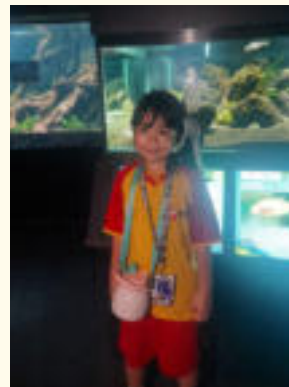

Study Tour Taman Mini Indonesia Indah

Taman Mini Indonesia Indah is a “theme park” located in East Jakarta. The name literally means “Beautiful Indonesia Mini Park”. The park was originally built back in the early 1970’s by the wife of the Indonesian President, and run by their family ever since. In 2021, however, it was taken over by the Government of Indonesia. Almost immediately the 100 hectare park began renovations. What is emerging now, in late 2021 (time of writing) is a beautiful theme park that is even more popular with locals and visitors than it was before. If that is possible!

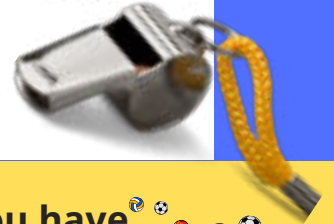

Monster Fish: Massive freshwater predators, some weighing over 200 kg, including Arapaima gigas, Alligator gar, and Giant freshwater

PRIMARY 3 MERUYA

CLASS MEETING

"There are no shortcuts to hard work. Accept that. You have to put in the time because there's always something you can improve on."

focus

CLASS MEETING

PRIMARY 5 MERUYA

Reading books in the library helps students develop their knowledge, imagination, and love for learning.

The students enthusiastically practiced their songs to prepare for the kindergarten graduation celebration.

Games that train focus help students improve their concentration, attention, and problem-solving skills

Sports activities help students stay healthy, active, and develop teamwork skills.

J1A Space & Science Adventure!

Skyworld at TMII

J1A students had an exciting study tour to Skyworld at TMII. They explored space-themed exhibits and learned interesting facts about planets, astronauts, and space travel.

Science Museum

The adventure continued at the Science Museum, where students discovered fun science activities and interactive displays. It was a day filled with learning, exploration, and happy memories with friends.

JIB CLASS CLASS ACTIVITIES

The objective of the study tour is to provide students with practical exposure beyond the classroom, enhance their knowledge and skills, promote teamwork and cultural understanding, and support their overall educational development."

The aim of the literature competition is to encourage creativity, improve language and literary skills

The aim of teamwork activities for JIB students is to develop cooperation, communication, leadership

J2A

On the 9th of April, J2A participated in various games during classmeeting, one of them being basket. In the picture here, we can see that J2A students are playing with excellent teamwork and skills.

They also played soccer, during the match they played with great enthusiasm and excitement, they were also coordinated which led to the victory of J2A.

EXPLORING THE WONDERS OF SPACE

Building Memories Together

During our visit to Sky World at TMII, students embarked on an exciting journey through the wonders of space and astronomy. They explored fascinating exhibits about planets, stars, satellites, and space exploration while learning about the vast universe beyond Earth. The interactive displays encouraged curiosity and inspired students to discover more about science and technology.

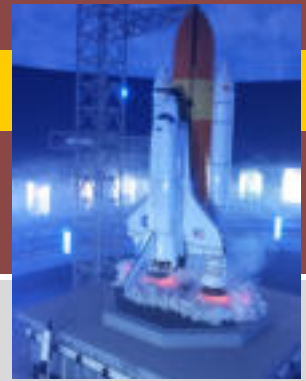

The experience provided a unique opportunity to connect classroom learning with real-world discoveries. Through observation and exploration, students gained a deeper understanding of space science while developing their sense of wonder about the universe. It was an educational adventure that sparked imagination and inspired future exploration.

TEAMWORK IN ACTION

Class Meeting brought students together through exciting games and friendly competition. Participants enjoyed activities such as futsal and dodgeball, where they demonstrated teamwork, determination, and sportsmanship while having fun with their classmates.

J2C Class

Visit To TMII

In mid-May 2026, the Westin School held an out-of-school activity, a scientific field trip to TMII (Taman Mini Indonesia Indah), that its located in East Jakarta. This event was intended for junior and senior students

Classmeeting

As usual, after each final test, junior and senior students held separate classmeetings. Class J2C advanced to the finals in basketball, futsal, and tug-of-war.

Graduation Junior3 year 2026

The graduation ceremony for junior and senior students in grade 9 and grade 12 was held simultaneously on thursday, June 18, 2026 at the Westin School in an orderly, smooth and lively atmosphere.

Distribution Report Card of J2C

The distribution of students report cards was carried out simultaneously from kindergarten to senioe level at westin school on friday, June 19, 2026 in an ordely and smooth manner.

J3A

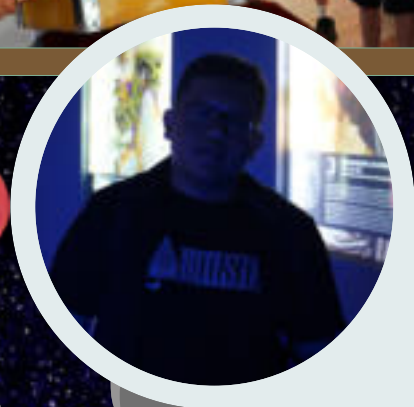

Exploration Day: Science and Space

J3 students had a great time exploring Skyworld at TMII. They discovered cool facts about space and enjoyed seeing the different exhibits along the way.

The fun continued at the Science Museum, where students tried interactive displays and learned through hands-on activities. It was a fun day filled with new experiences, laughter, and great memories.

J3B CLASS

The Grade 9 class meeting was lively, exciting, and full of enthusiasm. All students actively participated in a series of basketball and futsal competitions held after the semester examinations. The school grounds were filled with cheers and encouragement from classmates who came to support their teams.

Basketball Competition

During the basketball matches, students demonstrated excellent teamwork, improved game strategies, and strong sportsmanship. They supported one another, communicated effectively on the court, and worked hard to give their best performance for their class. Although the games were highly competitive, the players continued to show respect toward their opponents and the referees.

Futsal Competition

Meanwhile, the futsal competition was equally exciting. Students played with great energy, speed, and coordination in both attacking and defending situations. Their determination and perseverance were evident as each team continued striving to score goals until the final whistle. Spectators also contributed to the lively atmosphere through applause, cheers, and supportive chants for their teams.

New Everyday

What's ahead

We have fun while listening about Investment lesson, going to the Indonesia Science Center, and won Art and Literature.

NEWSLETTER S1B

这一年，我们不只学习，可是我们都会有很多活动。让学生学习起来。

CLASSMEETING

运动会，每年我们在考试后，就是在等这个。

MUSEUM

去了科学博物馆也学习了很多，我们不只是学习，也去玩。好开心，因为和朋友一起进步。

Visiting the Pradita Univeristy

During our visit to Pradita University, we gained valuable insights into how to choose the right university for our future.

We learned about important factors such as academic programs, university reputation, facilities, career opportunities, and personal interests. This experience helped us better understand the university selection process and encouraged us to make informed decisions about our higher education journey.

Senior 2B

study tour

During our study tour, we learned a lot about education, such as planets and satellites at Skyworld.

We also studied sciences like physics, biology, and chemistry at the Indonesian Science Center. In

addition, there were many interactive activities we could enjoy, which made the trip even more fun and exciting. Overall, it was a wonderful experience that made us enjoy our visit to TMII even more!

S3A SIGNING OFF

S3A'S LAST MOMENTS IN WESTIN SCHOOL

"Thank you, Westin.
For the laughter, the tears, the lessons,
and every person who crossed our path."

S3B CLASS

Taking our yearbook photo together was more than just standing in front of the camera; it was capturing a moment that we can never relive again. Behind every smile in that picture are countless memories of laughter, friendships, challenges, and growth that we shared throughout our high school years.

Some of us became close friends while others simply shared the same classroom and experiences, but together we created memories that will last a lifetime.

As time moves forward and we each follow different paths, that yearbook photo will remain a reminder of the beautiful chapter we spent together, a snapshot of not just who we were, but of a family we found in one another.

S3B is taking a picture with their class teacher, capturing a moment that truly reflects the warmth and connection they share. This photograph is more than just a snapshot; it symbolizes the countless hours spent together, the laughter shared during lessons, and the support given during challenging times. Throughout the semester, they have faced various obstacles, from tough assignments to personal challenges, yet their bond has only grown stronger. The teacher has been a guiding light, encouraging each student to reach their full potential, while the students have brought joy and energy into the classroom, creating a vibrant learning environment.

As they pose together, smiles wide and eyes sparkling, it's clear that this moment is a celebration of their journey together. Each face in the picture tells a story of growth, friendship, and resilience, reminding us all of the importance of community and support in our daily lives.

This image will be cherished, a beautiful reminder of the memories made and the lessons learned, as they continue to navigate their educational paths together.

As our high school journey comes to an end, we look back with gratitude on the years we spent together as a class. We experience moments of joy and success, also faced challenges, failures, and difficult times that tested our strength. Through every late-night study sessions, stressful exams, laughter-filled breaks, and unforgettable memories, we learned to support one another and grow together.

These experiences shaped not only our knowledge but also our character and friendships. Though we may take different paths after graduation, the bond we built and the lessons we shared will remain with us forever, reminding us that we were stronger because we faced both the good and hard times together.

S3B signing out!
