LET'S MAKE A FACE

I KNOW MY FACE

This month, our Nursery students had fun learning about the parts of the face through art and craft. We talked about the hair, eyes, nose, mouth, and ears and looked at where each part belongs.

The students then stuck the face parts onto a balloon to make their own funny faces. They enjoyed choosing where to put each part and were excited to see their balloons come to life! 🎈

At the end of the activity, the students were able to name some parts of the face, such as their hair, eyes, nose, mouth, and ears. It was a fun way to learn while practicing fine motor skills, language, and creativity. 💖

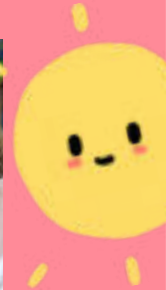

LEARN. LAUGH. GROW.

This week, the children participated in a fun craft activity by making pig faces. They used paper plates, colored paper, markers, and glue to create their projects.

The children were very enthusiastic as they attached the ears, nose, and other facial features to create cute pig faces. They enjoyed expressing their creativity while carefully completing each step of the activity.

Fun Pig Face Craft Activity

This activity helped develop the children's fine motor skills and introduced them to farm animals. All of the children participated actively and showed great enthusiasm as they completed their artwork. We are proud of their creativity and effort throughout the activity.

LEARN AND STUDY

PLAYING RHYTHM DOTS

Meaning of rhythm

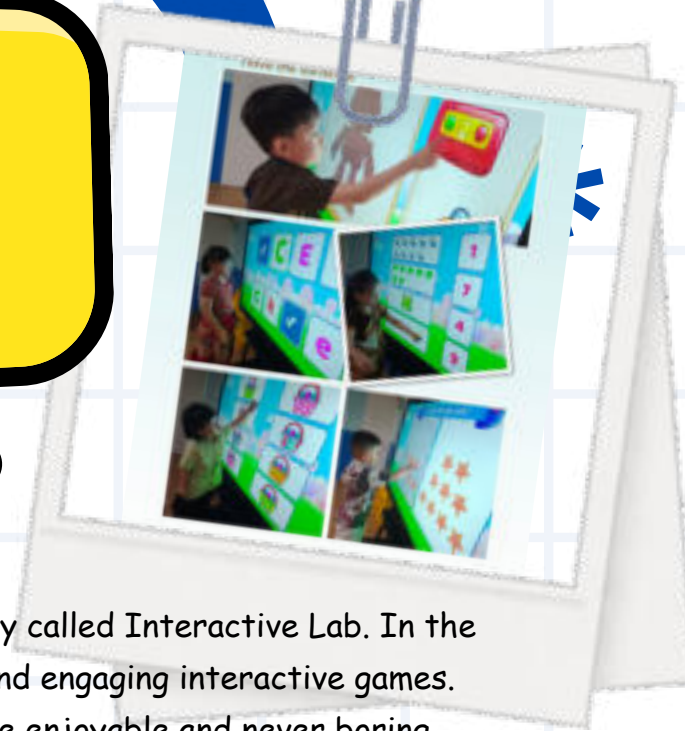

Rhythm is a strong, regular, repeated pattern of sound, movement, or elements

Rhythm in Music

- **Definition:** The organization of long and short sounds and silences over a steady pulse or beat.
- **Beat:** The steady, underlying pulse you tap your foot to.
- **Tempo:** How fast or slow the beat moves.

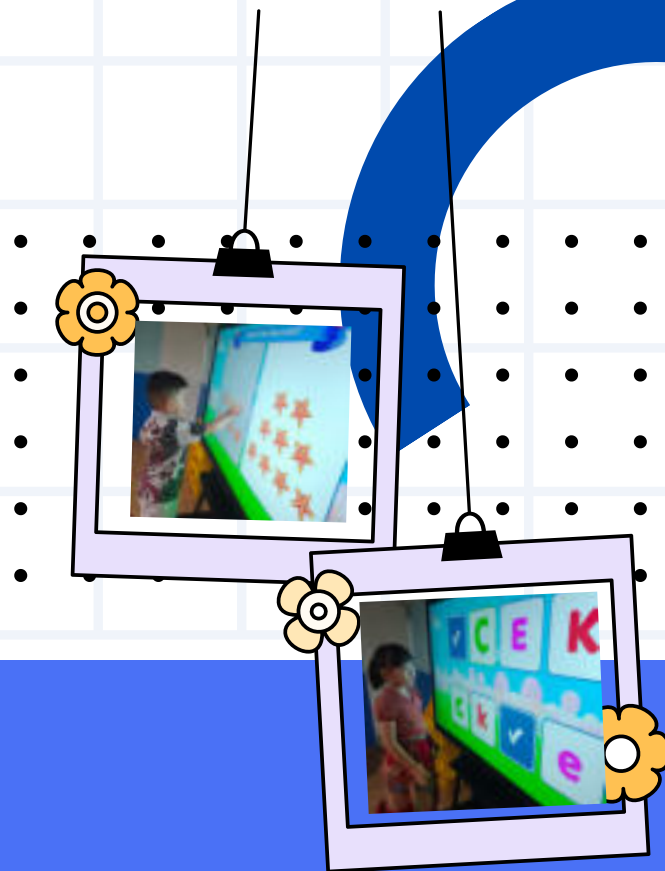

OUR INTERACTIVE LAB

At our school, we have a new and exciting activity called Interactive Lab. In the Interactive Lab, we can learn while playing fun and engaging interactive games. With the Interactive Lab, learning becomes more enjoyable and never boring. Instead, it becomes something we look forward to every day.

We gain many new experiences every day, such as learning to wait patiently, taking turns, and working together with our friends. That is why we always look forward to our Interactive Lab sessions every day

TINY HANDS, BIG CREATIVITY

.....

Through this fun art and craft activity, our Toddler and K1 Meruya Students developed their creativity, concentration, and fine motor skills. Most importantly, they learned to enjoy the process of creating something with their little hands.

Our little learners were busy creating, cutting, sticking and decorating their own beautiful art and craft projects. They turned simple material into wonderful and interesting creations.

Our Journey in Toddler Class

Our new experience in class was really fun. At school, we met new friends, and we did many activities together. Play, learn, and have fun together. What an extraordinary experience for us.

Teaching Children to care each other builds strong empathy, Kindness and lifelong social skills.

MAGIC ART NAME

This month, our students enjoyed a fun activity called Magic Art Name. The children learned to recognize the letters in their names and painted them using colorful paint and brushes.

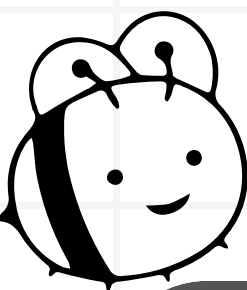

Through this activity, the children practiced recognizing letters, using a paintbrush, improving their fine motor skills, and expressing their creativity.

TEAMWORK DREAM WORK

Teamwork helps children build essential life skills like communication, empathy and problem - solving while making tasks more fun and achievable.

WE CARE FOR EACH OTHER

Teaching Children to care for each other builds strong empathy, kindness and lifelong social skills.

P1 HARMONY CELEBRATES INDEPENDENCE DAY
